

AASH Goals 2007 – 2009

1) Support the Society of the Sacred Heart's "In Mission For Life" campaign.

Action Plan:

Work in concert with the National Leadership Development Committee on this project.

2) Make AASH more visible to students in the Network of Sacred Heart Schools.

Action Plan:

Make presentations to graduating students of Network schools on the benefits of supporting AASH activities

3) Review all AASH publications to make sure they communicate information and major events in the life of AASH

Action Plan:

Offer a new design and format for *Esprit de Coeur*. Regional Directors to act as "reporters", glean information from the associations within their region to be included in the 2007-2009 publications.

4) Encourage regions to host business/social meetings in 2008, to include information on and attendance at the 2009 AASH National Conference in Los Angeles.

Action Plan:

Regional Directors, working with associations within their region, set date and host city for their 2008 regional meeting. This can be a large conference type event, or a small business meeting. As the new by-law states, "at the discretion of the regional director".

5) Encourage the formation of new associations in cities/schools where alumnae/i are not organized into a group.

Action Plan:

Work with at least one area in each region to take all steps necessary to be a full voting member association at the 2009 AASH National Conference.
